

God's Eye

MATERIALS

yarn, sticks, scissors

SETTING UP

1. Find 2 straight-ish sticks about 6 inches long.
2. Choose your first color of yarn and tie it around one of the sticks in the middle.
3. Put your sticks in an "x" shape (you'll be keeping it in this shape the whole time).

MAKING THE GOD'S EYE

4. Holding the sticks in one hand, and the string of your yarn in the other, start by wrapping the yarn fully around one stick once (keeping the wrapping close to the center).
5. Moving clockwise around the sticks, continue wrapping the yarn fully around each stick once, trying to make each new round right up next to the wraps done before.

CHANGING COLORS

6. When you want to change colors, cut off your current color, then tie it off on the stick you ended on.
7. Choose your new color of yarn, tie it around the same stick you ended on, and keep wrapping around the sticks.

FINISHING YOUR GOD'S EYE

8. When you're about 1/2 an inch from the ends of the sticks, cut the yarn and tie it off on the stick you ended on.
9. If you want to, add a little loop to hang up your God's Eye.
